

Polymold Products

QUALITY GOES IN. NAME GOES UP.

Geomembrane Hot Wedge Welding Machine LST-GM2

Technical Information

Rated Voltage & Frequency	230V & 50/60HZ
Rated Power	600W
Heating Temperature	50~450°C
Welding Speed	0.5-5.0m/min
Material Thickness Welded	0.2mm-2.0mm(single layer)
Seam Width	15mm*2,interior cavity 15mm
Weld Strength	85% material
Overlap Width	12cm
Digital Display	Temperature & Speed dual display
Welding pressure	100-1000N
Body weight	7.5Kg
Membrane Laying Ways	Single Side to the same side into the Membrane
Warranty	1 Year
